

Canadian Ambassador David MacNaughton and Mayor Brian C. Wahler discussed the great benefits of bringing good paying manufacturing jobs to Piscataway

Mayor's Message

Brian C. Wahler, Mayor

Economic development is a big part of what we do at Town Hall. We work to bring quality jobs to Piscataway for our residents while making sure that we all continue to enjoy a high quality of life.

We have a wonderful workforce with diversified skills. As such, Piscataway will surely continue to be home for good paying jobs for all types of workers so everyone has opportunities. That is why 2018 is so exciting because companies are knocking on our door to come into our community. They are bringing new jobs and are ready to pay taxes to the Township. That means more of the local tax burden falls to businesses and not to our homeowners.

Youth recreation, Senior Center events, resurfacing our roads, clearing snow in

the winter, police patrolling our streets – these and more are the many great Township services that are funded by just over one-quarter of your property taxes. The remaining majority of monies go to the school board and county with some set asides to libraries, our fire districts and county open space.

Over the past four years, home values in the Township have increased an average of 16.8 percent. In some neighborhoods, values have skyrocketed. This is great for resale but not for paying property taxes. However, much of the impact of the home value upswing is being cushioned by new companies coming into Piscataway. The Township's tax rate is being lowered this year by twelve percent. How often do you hear that in New Jersey?

Showcasing our Township for new companies can be far reaching. This is why I was pleased to talk with Canadian Ambassador to the United States David MacNaughton about how businesses headquartered in his country can find good opportunities for commerce in our community.

The Township Council's success in boosting economic development is good news both to Piscataway's homeowners and all of its hard-working residents. As the Spring now arrives, let us look forward to a blossoming of new jobs and a robust local economy.

As always, if you have any questions or need information, please call my office at (732) 562-2301.

Primary Election: Tuesday, June 5, 2018

Polls are open from 6 a.m. to 8 p.m.

Voter registration deadline for the primary election: May 15, 2018.

Deadline to apply for mail-in ballot by mail: May 29, 2018.

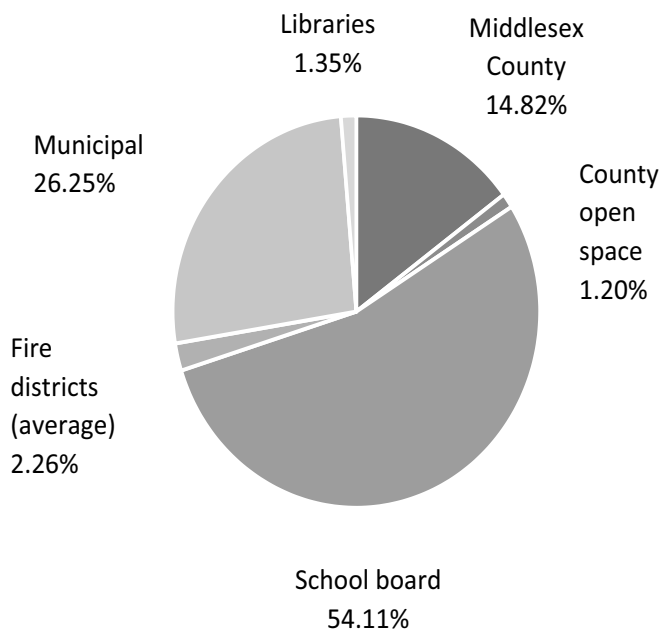

Deadline for in-person mail-in ballot applications for the primary election by 3 p.m. at the Middlesex County Clerk's office: June 4, 2018.

For information or questions, please call the Township Clerk's Office at (732) 562-2310.

Tax Office Remains Open

For the convenience of our residents the Tax Office will remain open during lunch from 12:30 p.m. - 1:30 p.m. beginning Tuesday, May 1st through Thursday, May 10th, 2018.

Do you know where your local taxes go? As shown in the pie chart, you can see how in 2017, after being collected by the Township, nearly three-quarters of the funds are then sent to the county, four fire districts (each with their own tax rate), library system and school board. It's important to know that the Township Council takes some of its revenue and provides additional funding to the library system for its programming and personnel on top of what is automatically dedicated to its needs.

Garden State To Reenter Regional Greenhouse Gas Initiative (RGGI)

by Senator Bob Smith

Senator Bob-Smith along with First Lady Tammy Murphy, Congressman Frank Pallone and environmental leaders look on as Governor Murphy signs Executive Order 7 on January 29, 2018

It is clear that we have to take urgent action to help protect against the environmental effects of climate change. As a coastal state, New Jersey is extremely vulnerable to the potential for harm caused by sea level rise and increasingly larger-scale and more violent storms. It is clear that states will have to lead the way in protecting against climate change. Unfortunately, we have lost precious time in New Jersey under the Christie administration to implement needed protections, but we are committed to taking action under the Murphy administration. It was my honor to be with Governor Murphy as he signed Executive Order No. 7 mandating that New Jersey begin the process of reentering the state into the Regional Greenhouse Gas Initiative (RGGI).

When New Jersey and our neighboring states created RGGI over a decade ago, we were in the forefront of environmental leadership by finding a commonsense solution that reduced pollution without limiting power companies' ability to operate. As sponsor of the original RGGI legislation, my colleagues in the legislature and I worked tirelessly to craft the law for the Garden State. Shamefully, with one unilateral decision, former Governor Christie chose to side with polluters over the health and wellbeing of our state's citizens as well as the quality of our air by using his power to withdraw the Garden State from RGGI.

RGGI is the nation's first auction to sell and trade carbon dioxide emission credits to large-scale CO₂ polluters such as coal-powered plants which makes polluting more costly and the proceeds from the auction go towards clean and renewable energy investments and energy efficiency programs. Nine Northeastern and Mid-Atlantic states belong to the coalition. Multiple studies released over the years found that New Jersey could be walking away from hundreds of millions of dollars in revenue if we were not to reenter the program. RGGI has led to investments in clean energy that will reduce energy bills and will create thousands of jobs.

While there remains much work to do, rejoining the Regional Greenhouse Gas Initiative (RGGI) is a giant step forward for the Garden State. The Governor's Executive Order stands to compliment and strengthen the RGGI legislation that I am sponsoring along with Senate President Sweeney. Senate Bill 611 has advanced to the Senate Budget and Appropriations Committee along with Senate Concurrent Resolution 40 which amends the State Constitution to dedicate revenues realized from the State's participation in the Regional Greenhouse Gas Initiative to electric vehicle, clean energy, and greenhouse gas reduction programs.

The new administration stands committed to doing what is right for New Jersey and to working with the legislature to make New Jersey an environmental leader once again. We have a chance to be on the right side of history and to take the action needed to help protect our planet for future generations.
